

Use of Sonnomed after adjustments

1. No snoring. Not stressful to use Sonnomat (Husband agrees!)
2. Continuous breathing - sometimes softly and sometimes deep breathing
3. Once in a while (2x a month approx.) dry mouth
4. Once in a while seems like I will snore but it does not happen.
5. Husband said I snored for forty years [Snoring was worse than sailors on ship!]
6. Daytime alertness good.
7. Satisfactory level of comfort without added advancement of ~~device~~ device
8. Uses morning exercisor for stimulation
